

Top notch care.
Top technology.
And now the Top 100 list.

Catholic Health System has been named one of the Top 100 integrated health networks nationwide.

Verispan, a respected health care data firm, evaluates nearly 600 integrated health networks annually on operations, quality, scope of services and efficiency. These networks are comprehensive groups of health care organizations including everything from hospitals to home care. This year, Catholic Health System was the highest rated health network in the Buffalo-Niagara region,

and one of only three in New York State to make the top 100. Achieving this honor is a testament to the hard work of the many associates and physicians throughout Catholic Health System. We are very proud to be named to the top 100 list of integrated health networks. And we believe that Catholic Health System will continue to be your best medical option.
